

SENATOR DEPEW GIVES EXPLANATION

Tells About Loan Made by the
Equitable to the Depew Land
Improvement Company.

IT WAS NOT VERY PROSPEROUS

Society's Official Appraisers Reported
After Examination that \$25,000
Was Only 60 Per Cent of Value.

New York, July 13.—Senator Chauncey M. Depew has made a statement to the Paris correspondent of the New York Tribune regarding the loan of \$250,000 made by the Equitable society to the Depew Land Improvement company on property alleged to have been worth only \$150,000, in which he says that he had never advocated or recommended any such transaction, because he was a director of the Equitable.

Senator Depew further says: "That loan never could have been made unless the official appraisers of the Equitable had reported after examination that \$250,000 was only 60 per cent of the property's value, thus being the rule of the society, and that on such a report the officers of the company had unanimously approved it."

"The Depew Land Improvement company was organized some five years before I was induced to become a stockholder. The town had then about 3,000 inhabitants and many thriving industries, including the New York Central shops, and connection with several trunk lines. The company appointed a general manager who built houses, a hotel, opened streets, extended the water and sewer systems and incurred great liabilities in improvements."

"A few of the larger stockholders formed a plan to pay off all liabilities and provide working capital, but the stockholders were so numerous, a large number living abroad, that co-operation could not be secured, and the company went into the hands of a receiver five years after the Equitable loan. The appraisal of the property has been made by officers and independent persons, the lowest valuation being \$200,000 over and above all liabilities."

"If the Equitable and other creditors will join and take the property out of the hands of the receiver and put it on a going basis, there is no possibility of loss. On the contrary, the payment of those best acquainted with the property, there is a certainty of profit. A few days before I sailed from New York I placed my resignation as counsel in the hands of Chauncey Morten, and I am very glad that he accepted it. I have passed my seventy-first birthday, and I had made up my mind before I reached 72 to secure something of that rest and freedom from incessant work that has been denied me year after year."

AMERICAN FLAG

Torn Down and Trampled on in
London, Ontario.

London, Ontario, July 12.—An American flag was torn down in front of the city hall tonight and trampled under a hundred feet as the result of a remark made by an American visitor at the Orangemen's demonstration. About 600 Americans came over from Michigan and during the day carried the stars and stripes through the streets without unfavorable comment being excited. Tonight the Americans gathered in front of a hotel when some one cried "The hell with Canada, she never showed us hell." Instantly the American flag owned by the Port Huron, Mich., lodge was torn from where it waved in the breeze and was ripped into shreds and trampled under the feet of an angry mob. Port Huron Orangemen say they did not resent it, as they believed the insult to Canada was uncalled for.

LAND FRAUD CASES.

Mass of Documentary Evidence
Introduced.

Portland, Or., July 12.—A mass of documentary evidence was introduced during the Williamson-Biggs-Van Genser trial today, the effect of which is to show Genser's acts in furtherance of the conspiracy and Biggs' knowledge of the illegality of the procedure. Correspondence between Biggs, as United States commissioner at Pineville, and Jay P. Lucas, then register of the Dallas land office, showed that Biggs had sent in all the applications of the timber entrymen, that he asked to have the final receipts all sent to him, and that Van Genser had written inclosed checks in payment of final proof for various entrymen, aggregating \$4,000.

The trial of Williamson, Genser and Biggs will probably be concluded tomorrow, as far as the evidence is concerned.

cerned. The government has many
more witnesses, but will probably not
call more than three or four. Judge
Bennett, chief counsel for the defense,
said that the course of the defense had
not been determined upon as yet, but
that it would probably not have more
than two or three witnesses.

Four witnesses appeared against the
three defendants this forenoon.
The introduction of a mass of documentary
evidence and the identification
of it by witnesses consumed the afternoon
session of court. At the conclusion,
Mr. Bennett announced that the
government rested its case.

The documents introduced consisted
of entries of public land which the
government contends were for the benefit
of the firm of Williamson & Genser;
reimbursements of claims which were
filed prior to the time that the indict-
ments against Williamson, Genser
and Biggs were returned, and letters of
Marion Biggs relative to entries or re-
linquishment of public lands.

COM'DR PEARY WILL SAIL FOR THE NORTH POLE.

New York, July 12.—With \$25,000 sub-
scribers to-day toward his expedition to
reach the north pole, Robert E. Peary
announces that he will sail this week
for the north. Commander Peary's new
Arctic ship, the Thos. W. Higginson,
will be ready for supplies, which could
not be bought on account of the lack
of funds.

The polar expedition, which has been
in preparation since Oct. 15, 1904, has
cost \$150,000, including today's sub-
scriptions. The entire amount has
been given by American business men
to the Peary Arctic club, whose mem-
bers are anxious that the north pole
have a heroic in this polar expedition.

Morris K. Jesup, president of the
club, subscribed \$5,000 today, and
Thomas H. Hubbard gave a check for
\$10,000. Mr. Hubbard also offered to
join with any other "believer" in the
north pole expedition in putting \$25,000
into a fund to be divided among the
members of the Peary party in case
they succeed in reaching the pole and
returning to New York within 18
months after their departure from here.

In announcing that his ship is at
last ready for command, Peary today
made public for the first time a dona-
tion of \$50,000, given by George Crocker
in January last.
The \$50,000 received today will be ex-
pended, Mr. Peary said, for hand picked
coal and additional scientific instru-
ments. His party is complete with the
exception of a surgeon.

Mrs. Peary will probably sail with
the expedition. From here the Roose-
velt will proceed to Sydney, Cape Reso-
lent, where the New York crew will
give up the ship to a picked crew, which
is already waiting on the Erik, a coal
ship, which will accompany the Roose-
velt to latitude 79. The Erik will then
return south, bringing Mrs. Peary with
her.

G. D. COLLINS ARRESTED.

Effort Will be Made to Extradite
Him from Canada for Perjury.

Victoria, B. C., July 12.—George D.
Collins, of San Francisco, was arrested
here tonight on a warrant secured un-
der telegraphic instructions from
Judge Lawler of San Francisco, charging
him with perjury committed on
June 30 in having sworn that he had
not married Charlotte Newman on
May 15, 1899 as she averred that state-
ment being untrue. Collins fled from
San Francisco accompanied by Mrs.
Collins whom he married in Chicago
recently and the local police were tele-
graphed to and requested to arrest him
on a charge of bigamy. This offense is
not extraditable and Chief Dinan of
San Francisco was informed to that
effect. Instructions were then sent to
arrest him on the charge of perjury.
Chief Langley went before Judge
Lampman at his residence and secured
a warrant with which Collins was ar-
rested when returning to his hotel to-
night in company with his wife. He
stated after arrest that the charge was
evidently a trumped up one and he
intended to fight extradition to the
end. Collins and wife were registered
at a hotel here as Mr. and Mrs. J.
P. Bransburg of Southampton.
Collins has engaged a local barrister
to fight extradition and application for
habeas corpus will be made tomorrow
morning.

CHINA'S ATTITUDE.

Won't Consider Herself Bound by
Russo-Japanese Treaty.

St. Petersburg, July 12.—According to
information obtained at the foreign of-
fice, it seems that China did not ask
for actual representation at the Wash-
ington peace conference, but simply
notified Russia and Japan that if she was
not apprised of the conference and her
consent secured to any stipulations
to a treaty affecting Chinese territory
she would not consider herself bound by
it.

Identifies Murdered Man.

Salina, Kas., July 12.—C. J. Halde,
president of the Iron Molders' union of
St. Joseph, arrived here tonight and
identified the body of the man murdered
here Friday as that of N. Sexton of St.
Joseph. It is thought by the officers
here that Sexton was robbed and mur-
dered by the same gang that held up
six men at a Winfield hotel, two mem-
bers of which fought the officers at
Cedarvale this morning.

"Jackrabbit" Charley Killed.

Red Lodge, Mont., July 12.—A well
known character of Carbon county,
Charles Benning, better known as
"Jackrabbit Charley," has been killed
by a horse falling on him while riding
across country in the upper Clark Fork
valley. Benning was riding "Jack-
rabbit Charley" after being snow-
bound in a cabin in the upper Clark
Fork valley over winter and living on
jackrabbits for months until able to get
relief. Benning was a well known news-
paper man.

Beverly Letcher Takes Opium.

San Francisco, July 12.—Beverly
Letcher, chief loan clerk of the San
Francisco Savings union, director of the
North Shore railway and well known
clubman, was found unconscious to-
night in his room in a hotel on O'Far-
rell street from the effects of opium
poisoning. Taken, it is believed, with
suicidal intent.
Letcher was taken to the emergency
hospital where the physicians say he
probably will die.

To Improve Army Posts.

Washington, July 12.—The chief of
staff has approved the recommenda-
tions of Quartermaster-General Hum-
phrey for the improvement of quar-
ters

at the various army posts throughout
the country. For this purpose Con-
gress appropriated \$4,085,950.

FOR THOUSAND ISLANDS.

Three Men in a Boat from Chicago
Bound for Them.

Watertown, Conn., July 12.—James
Wallace, E. R. Parsons and Charles
Chaplin of Chicago, are now between
Clayton and Oswego, bound for the
Thousand Islands in a 35-foot sailing
yacht, in which they have traveled ap-
proximately 5,000 miles. They left Chi-
cago by way of the drainage canal on
Oct. 18. The trip down the Mississippi
river consumed two months. From
New Orleans they went to Florida,
where they spent the latter part of the
winter. They then came up the Atlan-
tic coast, and arriving at New York
about a month ago, started up the Hud-
son. A naphtha launch towed them
from Troy by canal to Oswego. The
trip has had many exciting adventures
and hairbreadth escapes, and the men
expect to arrive home between Aug. 1
and 15.

A PLOT DISCOVERED.

Was to Blow Up Castle of Hinko-
koje, Near Moscow.

New York, July 13.—A World dis-
patch from London contains the fol-
lowing from the Vienna correspondent
of the Daily Telegraph:
"Private letters from St. Petersburg
state that the police have discovered
elaborate preparations for blowing up
the castle of Hinkojoje, near Moscow,
where the czar with the imperial fam-
ily intended to take up a brief resi-
dence. Beneath the apartments des-
tined for his majesty's use, a subter-
ranean passage is said to have been
found leading to a cellar where 250
pounds of dynamite lay concealed.
The police have made many arrests,
apprehending, among others, two engi-
neers who conducted the cleaning and
decorating of the apartments of the
castle."

"The intelligence, associated with
the murder of Shavlovsk, has made a
deep impression."
"The czar has now given up all idea
of staying at Hinkojoje."

a network of interurban lines, radiating
from the city of Havana and covering
an extensive territory in the interior
of the island, which has hitherto been
without transportation facilities. About
125 miles will be constructed at first,
involving an expenditure of nearly \$5,
000,000.

The road, besides its passenger traf-
fic, will inaugurate a freight service.
The power house to be constructed
in Havana will generate 7,500 horse-
power of electric energy at 25,000 volts
three phase current for the purpose of
operating the new lines. Steam tur-
bines will be used, this being the first
instance of such equipment being called
for in the West Indies. The entire
system is expected to be in operation
within fifteen months.

Sash Factory Burned.

Everett, Wash., July 12.—The Wheel-
man and Weidauer sash and door fac-
tory owned by F. A. Wheelman, was
destroyed by fire tonight. The loss was
\$60,000, with insurance between \$25,000
and \$40,000. The plant will probably be
rebuilt.
